HOW TO ENJOY THESE DOMINICAN GEMS?

When smoking a cigar, do not underestimate the power of your nose. As many people say in the industry, your mouth accounts for 30%, while your nose accounts for 70% of aroma perception. Many argue that the mouth can only perceive sweetness and saltiness.

So, use retro-inhalation to have a 100% experience with your cigar.

For those of you who have never done it, here are the steps and the JMB technique to do it.

Opt for a light cigar, such as a Dominican Connecticut, known for its mildness. Retain about 50% of the smoke

Put your tongue on the roof of your palate. Keep your mouth shut.

Exhale the smoke through your nose like if you were sneezing.
